

## Acrocheer's Private Lessons

**513-807-3459 call/text**

Private lessons can give an athlete the extra attention they need on a specific skill in which they need to improve. All athletes learn at different paces. It also gives the instructor a little more one on one memory of that particular child's needs. Our private lessons program allows your child to have our full attention for ½ hour or 1 hour. This is what they love! We focus on certain skills, events, or do it all! Sign up for one today! During private lessons the gym could be empty or a small class may be in session. This depends on your availability and ours to teach the private lesson. Privates might be scheduled at the same time but they will have their own instructor.
